Summary

I'm an enthusiastic developer passionate about building web applications, with a strong focus on front-end development. With a background in Computer Science Engineering, I have a solid foundation in HTML, CSS, and JavaScript, along with in-depth experience working with React.js. I specialize in creating user-friendly interfaces, optimizing performance, and turning Figma designs into fully responsive web templates. My strong problem-solving skills help me stand out in a competitive environment.

Work Experience

IhelpBd - Customer Service Representative

(2023 - 2024) - Dhaka, Bangladesh

I provided support to customers by responding to inquiries, resolving issues, and processing orders efficiently. I maintained accurate records and ensured a positive experience through clear and professional communication. My role also involved coordinating with other teams to address complex concerns.

My Portfolio

(2025 - 2025) - Dhaka, Bangladesh

Welcome to my personal portfolio built with React. Explore my web development projects, design skills, and technical expertise. This site reflects my passion for creating clean, responsive, and interactive user experiences using modern frontend technologies.

Featured Project

E-commerce-Oribe

I am working on an e-commerce product called Orebi, where my role involves developing components, routes, and custom hooks, integrating Redux for state management, and handling forms and API data fetching. I present dynamic data on the website while ensuring the UI matches the provided design specifications exactly.
